Monday, 8 September 2026

What to do from now until the face off?

What to expect on the BIG DAY?

- 7:00 AM Open Registrations
- 8:00 AM Inaugural
- 8:45 AM Hackathon Starts
- 9:00 AM Mentorship Session (until 1:45 PM)
- 2:00 PM Hackathon Final Submission
- Start of Evaluation | Lunch
- 4:00 PM Announcement of Finalists
- 4:10 PM Pitching (Finalists) and KIPS Session (in parallel)
- 7:25 PM Winner Announcement – HACKNUSA 2026
(Hosted by Kaspersky)
- 7:40 PM Closing Ceremony
- 7:45 PM Dinner hosted by Kaspersky

The Mentorship

Allocation: Each team is assigned with 2 mentors and allocated according to a scheduled session.

Time Limit: 15 minutes for each team.

Good to Remember

Mentors will provide guidance, but will not correct your codes or configure systems for you.

Judging Criteria

Accordance with the track 5%
Unique Selling Proposition 25%
Technical feasibility 25%
Proof of Concept 25%
Level of security 10%
Scalability and deployment readiness 10%

A red, stylized, handwritten-style number '100' with a double underline, set against a white square background.

What should be in the pitch?

The hook.

The problem.

The solution.

The demo.

The stack.

A Strong Hook

What if you could...

So that...

Think about this...

A Strong Hook

What if you could...centralized all banking notifications in one app for your entire family and verify all banking communication channels
So that...it will reduce the number of successful phishing scams and allow family members to track fraud.
Think about this, you don't have to worry so much about your grandparents receiving phishing messages because you can help verify it in real-time?

Thank you!
